Knowledge Organiser Focus: Geography of the UK and beyond

I should already know:

The names of some of the continents and that maps show us the real world on a smaller scale. Geography of your local area

I will learn:

- The human and physical geography of the United Kingdom
- The human and physical geography of Sheffield
- Features of the continents
- How human and physical features impact population density
- The causes of predicted future population change
- Describing patterns on maps

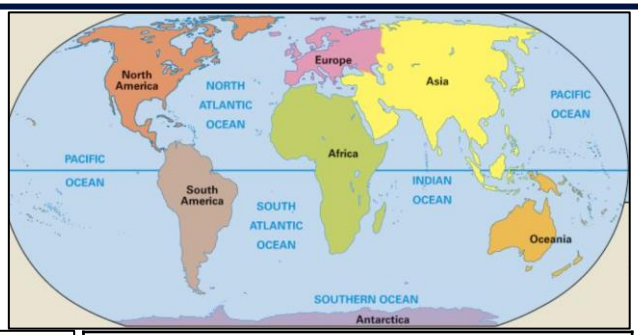
This will help in the future:

Economic and social development (year 7)
Study of Africa (year 7)

Key Words

Lines of latitude	Imaginary lines around the world that goes from East to West
Lines of longitude	Imaginary lines around the world that goes from North to South
Continent	A landmass made up of many countries
Settlement	Used to help locate places on a map
Compass	An instrument used for navigation and orientation
Physical features	The natural features on the earth's surface that are not manmade
Human features	All the features on the earth's surface that have been added by humans
Density	The average number of people living in an area per square kilomoter (sq/km)

There are 7 continents and 6 major oceans in the world



The United Kingdom (UK)	
British Isles	UK and the Republic of Ireland
The UK	England, Scotland, Wales and Northern Ireland
Great Britain	England, Scotland and Wales

Greater Depth Challenge

Create a map of your journey to school. Include the key human and physical features that you encounter
