

Science

Can you write a report about the lifecycle of a butterfly?

Create a leaflet about the lifecycle of a butterfly.
Write sub-headings to show each part of the lifecycle.
Make sure you add lots of information, drawings and diagrams to tell your reader everything they need to know!

Geography

Can you create fold mountains and explain how they are explored?

[Fold mountains practical demonstration](#)
Use the video link to watch a practical demonstration of how fold mountains are formed. Can you set up this simple practical yourself and label your fold mountain model?

Or

Draw a diagram in your book and explain how they are formed.

[Mountains for kids explained](#)

Music

Can you explain why you think a piece of music is successful or unsuccessful?

Click on the link below and move the screen away as you listen to it.

Why does this music fit well? Can you draw what you are imagining?

[Toy Story 3 opening](#)

Play it again but **watch** the clip from Toy Story 3 and listen to the music. Does your drawing match what you were thinking of? Can you describe how the instruments you can hear fit this scene and the characters?

Jigsaw

What are you looking forward to next year?

Draw a portrait of yourself and place 5 words around your picture to describe yourself.

- Identify one new thing you want to try next year.
 - List three targets for yourself next year.
 - Identify your two favourite subjects.
- Identify one thing you want to do or achieve outside of school.

R.E.

To explore the features of the sistine chapel.

Draw and label the Sistine chapel with the key features.

[Virtual tour - Sistine Chapel](#)

Extension: Create some artwork inspired by the famous ceiling inside the chapel!

Mindfulness

Create your own dance routine and perform it to your family or find a dance tutorial online to follow and try!
