

Key vocabulary

amphibians	Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin.
birds	All birds have a beak, two legs, feathers and wings.
fish	Fish live and breathe underwater. They have scaly skin, fins to help them swim and they breathe through gills.
mammals	Mammals are animals that breathe air, grow hair or fur and feed on their mother's milk as a baby.
reptiles	All reptiles breathe air. They have scales on their skin.
carnivore	Animals that mostly eat other animals (meat) are carnivores .
herbivore	Animals that only eat plants are herbivores .
omnivore	Animals that eat plants and other animals (meat) are omnivores .

 amphibians	 birds	 fish	 mammals
 reptiles	 carnivore	 herbivore	 omnivore

Common Animals

 giraffe	 magpie	 green frog	 toucan	 wasp	 blue tit
 brown snake	 rabbit	 ladybug	 alligator	 hummingbird	 elephant

Thinking Deeper Challenge
Can you create a poster all about an animal of your choice? Can you include the structure of the animal and their diet?

In the future

I can identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals.

I will learn

Describe and compare the structure of common animals.
Identify and name a variety of common animals that are carnivores, herbivores and omnivores.

I should already know

I can recognise and name some animals.
I can identify different foods that humans eat.

Structure of Animals

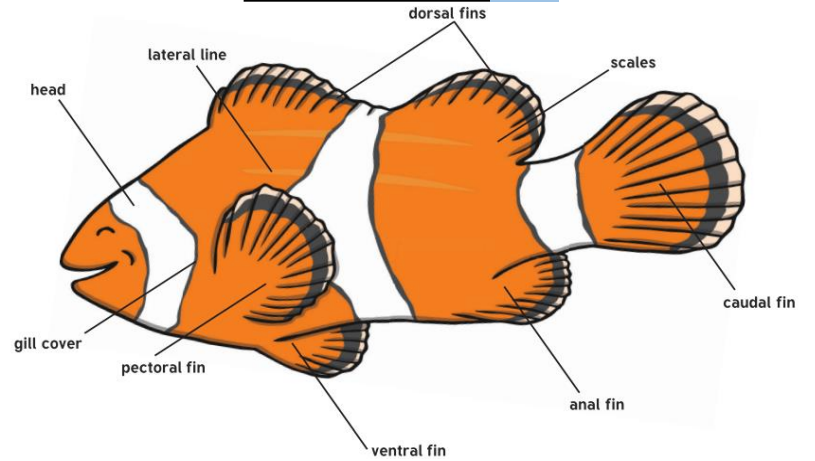

Animals are all structured differently but they might have some similarities.

Some features we may look at on animals are tails, claws, shells, tentacles, fins or tusks.

Structure of a Fish

Carnivores

Carnivores are animals that eat meat (other animals). For example spiders eat flies.

Herbivores

Herbivores are animals that eat plants. For example, horses eat hay and cows eat grass.

Omnivores

Omnivores are animals that eat plants and meat. This can be a good way to survive because if they cannot find meat, they can eat plants.

Examples of Carnivores

kingfisher

frog

mole

adder

Examples of Herbivores

woodpecker

deer

caterpillar

rabbit

Examples of Omnivores

fox

squirrel

badger

dormouse

Herbivores, Carnivores and Omnivores

1. Name a common animal that is a herbivore.

2. What is a carnivore?

3. Tick the animals that are omnivores.

squirrel

hedgehog

mouse

bat

kingfisher

fox

Animals

1) Name these animals.

Name a part from these animals.
