

I should already know:

- The different types of place people can live.
- Coding is a series of instructions given to perform an outcome

I will learn:

Geography
Identifying cities on a map and islands surrounding the United Kingdom.

Art and Design
Use tone, shape, colour and texture to create a self portrait.

Computing
Explain what coding is
Use timers to create effects
Create a program that repeats actions indefinitely

R.E.
Identifying inspirational leaders,
Comparing leaders according to their qualities.

Music
Practicing and performing a simple piece of music rhythmically.

This will help in the future:

- To identify different settlements.
- To understand why people choose to live in different places.
- To debug programs

Key Words			
island	A piece of land surrounded by water.	leader	The person who is in charge of a group.
origin	Where something or someone is from.	tone	The lightness or darkness of the colours used.
city	A large town.	texture	The appearance of an object has different textures, these could be smooth, rough etc.
village	A group of buildings including houses in a rural area, smaller than a town or a city.	self-portrait	A painting or drawing of yourself.
town	A built-up area with a name, defined boundaries, and local government, that is larger than a village and generally smaller than a city.	de-bug	Find and remove mistakes in a computer programme.
ethnic groups	The social group a person belongs to. Related to race, religion etc.	algorithm	A set of instructions which must be followed to achieve an outcome.
spiritual	Relating to religion or religious beliefs.	rhythm	A strong, regular pattern of sound.

village

town

city

Greater Depth Challenge
Create a personal map that shows your connections to people in different parts of the world.

Geography

The United Kingdom is made up of different cities, **towns** and **villages**. The capital **city** of England is London.

In these different cities, there are lots of people who have different religious beliefs and backgrounds. These people often live together to form **ethnic groups**.

The United Kingdom is also split into 4 countries. These are England, Scotland, Ireland and Wales.

Computing

We will be saving/retrieving work from a computer network and understanding what a computer network is. A computer network is a number of computers linked together to allow them to share resources.

We will also be using PowerPoint create a presentation about the UK, using search engines to find information. We will copy and paste key/relevant information and photos to create a final presentation and present it to our peers.

Art and Design

R.E

Nelson Mandela

Nelson Mandela was an inspirational **leader** who stood up for what he believed in. Nelson was a civil rights **leader** in South Africa. He fought against Apartheid, a system where people were segregated based on their skin colour and there was not equal rights for all.

Nelson Mandela protested and spent time in prison for his beliefs. Because of his hard work and life-long efforts, things changed for the better. Nelson Mandela became President of South Africa and was awarded the Noble Peace Prize.

Geography

What is the Capital **City** of England?

What are **ethnic groups**? Give 2 examples.

Which 4 countries is the United Kingdom made up of?

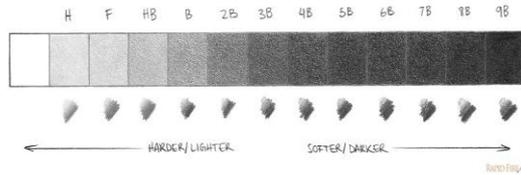

- 1)
- 2)
- 3)
- 4)

Computing

What is a computer network?

Art and Design

Draw and shade a picture of a tree using the shades and tones above

R.E

Malala Yousafzai

Who?

What?

Nelson Mandela

Who?

What?

Compare Malala Yousafzai and Malala Yousafzai. What do they do that's the same? What's different?
