

13th March 2024

Oasis Academy Don Valley – Primary iPad Refresh - Important Information

Dear Parents/Carers,

This letter is to inform you about the upcoming refresh of our **Primary iPads** at Oasis Academy Don Valley, starting the week of **March 18th, 2024, and continuing until the end of the term**. We are excited to offer this program, which will provide Primary pupils with:

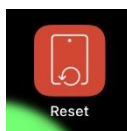

- **Newer and faster technology:** Upgraded iPads offer better performance and support for the latest educational apps and resources that we use to enhance learning.
- **Improved learning experience:** Enhanced technology fosters engaging and interactive learning.

What to expect:

- **New iPads:** Your child will be receiving a brand-new iPad as part of the refresh program.
- **Charger and Case:** Children will need to bring their current iPads to school but **can leave their chargers at home**. New charging cables and cases will be provided with the new iPads.
- **Smooth Transition:** We will be working to ensure a smooth and efficient swap process. Staff will be ensuring a proper data transfer and device setup.
- **Academy iPad** – If your child does not take their current iPad home this will remain the same with the new one.

What you can do:

- As usual, please **ensure your child brings their current iPad to school** starting the week of March 18th.
- **Refrain from pressing the "JAMF reset app"** that may appear on their current iPad. This app is for internal use only during the swap process. Do not press this at home.

- **Stay informed:** We will keep you updated on further details over the course of the roll out.

Yours faithfully,

Mr. M Murray
Assistant Principal and Horizon's Lead for Primary
Oasis Academy Don Valley

Principal: Mr T Mahmood
Leeds Road
Sheffield
