Class Pratchett/Morpurgo

Spring Term 2 2026

Curriculum overview

This half term we will be focusing on ***Harry Potter and the Philosopher's Stone***, the first novel in the immensely popular Harry Potter series by British writer J.K. Rowling. The book's imaginative story line about a boy wizard made it an enduring hit with both children and adults. By the end of the unit, we will produce an independent narrative based on an entertaining, suspenseful quidditch match.

Rocket Readers

Your child needs to be reading at least 3 times a week. This is vital for their progress in all areas of the curriculum! We are aiming for Y6 to have 100% rocket readers!

Please read with your child, ask them questions, discuss their book and record in their reading journal to bring back to school everyday. They should be bringing a physical book home every day.

Personal Development

In Personal Development we will focus on media messages, aspirations and financial awareness. This will lead on to learning about how the internet and social media can be used both negatively and positively. Following on from this, we will discuss how images and text on social media can be manipulated.

Home learning

Help at home by….

- Reading at least 3 times a week and recording in their reading journal or on E Platform or Wheelers!
- Ensuring that your child completes their homework each week as this will support their learning.
- Help your child to learn their Y5/6 spellings and play on spelling shed.
- Make sure your child is regularly using sumdog and magma maths practice to support with SATs revision.

Good News

We have seen great improvement in our Autumn 2 Mock SATs scores! Hopefully the great improvement will continue into our final round of mocks.

Lots of children have been completing lots of amazing homework!

Lots more hildren are reading at home and have been rocket readers this half term, so thank you for all your support!

Maths and English

This half term, we will be focusing on decimals, fractions and percentages; area, perimeter and volume and statistics. We will be sending lots of practice in our weekly homework! Children can also practice through their magma maths app.
