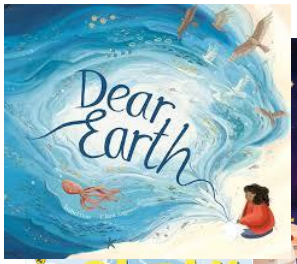
Team Nursery
Summer Term 2 2026

Curriculum overview

During summer term 2, our topic will be 'our world'. We will begin to explore the season of summer and notice changes happening around us. We will then travel beyond earth to learn about space, planets and our place in the universe. As the term continues, we will explore our planet earth and learn about oceans, sea creatures and the importance of looking after our environment.

Towards the end of the term, we will learn about people who help keep us safe e,g lifeguards, paramedics, police.

We will finish the year by celebrating our achievements and enjoying graduation and summer activities as a class.



Rocket Readers

Let us know when you have read at home with your child and we will add a raffle into the Reading Jar. At the end of the week, we will pick a name out, and the winner will choose a book!

Personal Development

In Personal Development, we will continue developing our independence, confidence and resilience as we prepare for the transition into reception. We will focus on working together, sharing our resources and showing kindness towards our friends. Through stories, discussion and play, we will learn about caring for our world, respecting nature and understanding how our actions can have positive impacts on the environment. We will continue to practice managing our feelings and making good choices.
We will be recapping all the British values and habitudes.

Home learning

Help at home by….

- Reading at home with your child
- Talking at home with your child – this can be in any language! Talking and engaging in conversation means that children can learn the skills of talking with others.
- Mark making and drawing will develop children's talking skills, as well as pencil control and attention levels.

Good News

We have had a fantastic summer term 1! The children loved learning about the little red hen and were especially excited when the hen came to visit our classroom. We explored where food came from and learned about how flour is made.
As part of our healthy living topic, we learned about good hygiene and how to look after our teeth.
The children looked at the lifecycle of cress and even grew there own to observe.
We have had a busy term 1 and are so proud of all there hardwork and achievements.

Maths and English

In Maths we will explore sequencing and talk about events in order. We will develop an understanding of capacity through water and sand play as well as positional language such as over, under, next to, behind and in front. We will continue to develop mathematical vocabulary through everyday experiences and recognise, count and represent numbers to 5 and beyond.

In English, we will be learning about out world though a range of exciting stories. We will encourage children to listen carefully, join in with repeated phrases and talk about key events and characters. We will continue to encourage mark making, drawing and early writing, as well as recognising and writing the letters in their name.
